

## Drawing for the Creative Industries – Introduction

This course is designed to provide an overview of the different types of drawing methods and styles used in the Creative Industries.

Duration: 1 Year

Course Code: UXPPAA04

Start Date: Fri 29 April 2022

Weeks: 3

Time: 09:00 - 17:00

Fee: £75 \*

## Overview

"Drawing takes time. A line has time in it." - David Hockney

The Creative Industries includes many creative design practices. From Fashion to Graphic Design, Photography to Fine Art. Drawing forms part of the skills used in all these industries. The methods and styles used however differ depending on the artist's intentions. This short course aims to introduce you to some of the basic principles of drawing and to see how they might be applied in different contexts.

## Academic Progression

Art & Design Award Level 1

## Equipment Info

All materials and equipment are provided by college and included in the course fees.
