Course Code: UFPNAF14

Start Date: Tue 28 September 2021

Weeks: 10

Time: 17:45 - 19:15

Fee: £90

Overview

You will learn through listening to authentic French speakers, practising short conversations with each other, reading signs and short notices and writing emails. The emphasis will be on communication rather than grammar and, as you progress, you will enjoy an insight into both the culture of France and other French-speaking countries.

With Brexit on the horizon, it is now more important than ever to be able to speak a language other than English. French is not only spoken in France, but also in Switzerland, Belgium, Quebec in Canada and many African countries, including the holiday destinations of Morocco and Tunisia.
