

## More Animal Care - Junior

Attended our Junior Animal care course, enjoyed it and want more? Join us again for More Animal Care where you can work with even an even larger range of animals.

Course Code: UFPNAG04

Start Date: Sat 25 April 2020

Weeks: 1

Time: 10:00 - 15:00

Fee: £40

## Overview

Like the Junior Animal Care introductory course, you will still cover a variety of topics to include animal handling, feeding, cleaning, accommodation and grooming and you will practice these on a range of species in our animal unit. You will have an opportunity to broaden the skills you learned previously and work with some of the animals you haven't before. You could be involved with handling some of our more challenging animals such as the ferrets, corn snakes and water dragon and you may even get the chance to feed the snakes. Come along and you will learn more about how to care for our weird and wonderful animals. With over 30 species of animals, there is plenty to learn about and we do this in a practical way as we know how important hands-on experiences are.

You will be required to follow all health and safety requirements.

## Modules

- Animal handling
- Feeding
- Accommodation
- Grooming
- Cleaning

## Equipment Info
