

## Photoshop – Digital Photography

Master your camera and post-processing skills to produce creative and dynamic outcomes.

Course Code: UXPKFA08

Start Date: Wed 5 February 2020

Weeks: 8

Time: 18:00 - 21:00

Fee: £80 \*

## Overview

This course enables learners to explore the essential camera and Photoshop skills needed to produce consistent and considered outcomes. Learning to develop your creative potential in engaging class sessions, this course aims to help you further build on your basic understanding of using a digital camera and learning the skills of photography and image editing. This will involve practising different techniques of photography, i.e. low light, portrait, close up and action. By the end of the course, you will know how to produce accurate exposures through the aperture, ISO and shutter speed controls whilst applying relevant editing techniques.

# Equipment Info

Please bring an SD card and camera (although cameras are available to borrow).
