

Stained Glass Introduction

Achieve the ultimate in window dressing and learn to make a stained glass panel for your home using traditional leaded light stained glass techniques.

Course Code: UFPNFA02

Start Date: Sat 20 March 2021

Weeks: 1

Time: 09:30 - 16:00

Fee: £60

Overview

This stained glass 1 day course for beginners will introduce you to the traditional lead came method of stained glass making. The workshop will cover glass scoring and cutting, cutting to a pattern, assembly, leading, and soldering. Learn the design principles of working with coloured light. Using an established design template, make your own stained glass panel to take home.

Modules

- Techniques For Glass Cutting
- Constructing Glass Panel Using Lead Came
- Learning How To Solder

Entry Requirements

This is a fast paced workshop and requires some standing for long lengths of time.
