

CARPENTRY & JOINERY LEVEL 2

THE FACTS

The full cost	£12,000
Employer cost	£0 - £1,200
Employer incentive	£0 - £1,000
Duration	2 years
Attendance	Workplace & day release
Start dates	Roll on roll off
Assessment	Site and synoptic
Wages	£3.70 min.

OVERVIEW

The occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components. This is a core and options Apprenticeship, with two pathways:

- **Site Carpenter** - will normally work on a building site, or in domestic and commercial premises, preparing and fixing building components, from the initial erection of a new building, through to the installation of all necessary fixtures and fittings, as well as a range of repair and maintenance activities.
- **Architectural Joiner** - will normally be employed in a workshop producing timber based building components and other architectural products, such as doors, windows, units and staircases, which are then transported to construction sites to be installed by site carpenters.

Entry Requirements

- Ideally candidates will have GCSEs grade 9-4 (A*-C) in English and maths

Site Carpenter Skill Requirements

- Carry out a range of job tasks including measuring, marking out, fitting, cutting, splicing, finishing, positioning and securing
- Install door and window frames, door and hatch linings, floor joist coverings, straight partitions and straight staircases
- Install doors, ironmongery, service encasements, wall and floor units and fittings, cladding and staircase components
- Erect inclined roofs with gables, joists, roof coverings and roof components
- Repair or replace frames, mouldings, doors, windows, door and window ironmongery, roofing components, guttering and downpipes and window components
- Use, maintain and store hand tools, power tools and associated equipment

Architectural Joiner Skill Requirements

- Carry out a range of job tasks including drawing, measuring, marking out, fitting, finishing, positioning and securing
- Produce setting out details for the manufacture of doors, windows and opening lights, units and stairs
- Mark out timber from setting out details for the manufacture of doors, windows and opening lights, units and/or fittings and staircases
- Create, fit and assemble components to manufacture doors, windows with opening lights, units and/or fittings and staircases
- Use, maintain and store specific architectural joinery tools and equipment, such as marking and testing tools, power tools and hand tools
