guide/pay-and-conditions](http://www.gov.uk/apprenticeships-guide/pay-and-conditions)

### OVERVIEW

The occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components. This is a core and options Apprenticeship, with two pathways:

- Site Carpenter - will normally work on a building site, or in domestic and commercial premises, preparing and fixing building components, from the initial erection of a new building, through to the installation of all necessary fixtures and fittings, as well as a range of repair and maintenance activities.
- Architectural Joiner - will normally be employed in a workshop producing timber based building components and other architectural products, such as doors, windows, units and staircases, which are then transported to construction sites to be installed by site carpenters.

### ENTRY REQUIREMENTS

- Ideally candidates will have 5 GCSEs grade 9-4 (A\*-C) including English and Maths
