## WORK EXPERIENCE LINKS

As part of your course you need to find a company that will allow you complete work experience with them. You will need at least 1 week of work experience in order to complete your study programme

In order to find work experience, you need to ask family and friends if they know anybody who works in the construction industry. These can be self-employed sole traders, or larger building contractors.

If you do not know anyone then you will need to search the internet for local builder's/construction companies close to your own locality.
