Esports Level 2 Award/Diploma

Esports Level 3 Diploma/Extended Diploma

NOT JUST GAMING!!

The main thing to realise about the esports course at Craven College, is that it is not just playing computer games all year. The coursework and workload are no different to any other A Level equivalent course.

Students that undertake esports delve into an industry that is worth over £1 billion and still growing. It is currently a bigger growing sector than Music and TV production combined.

From Broadcasting, Business Management, Healthy Living, Advertising and Digital Content Creation to Streaming, Event Planning and Producing, Games Design and Social Media Esports covers a massive range of topics, modules and real-world material to prepare you for progression from college.

Esports can give you a basis in many other subject areas, and a wide range of skills to take into Higher Education or employment.

PROGRESSION

The course will set you up for a choice between going to university or getting straight into a job with international potential. You will study gaming in all its forms as well as health and fitness within the industry.

You will also understand the positive benefits of esports which include:

- Development of teamwork
- Communication
- Leadership skills
- Confidence building
- Decision-making
- Reaction times
- Reading comprehension skills
- Cyber skills
- Dexterity
- Concentration

Progression options are varied across esports, with the list below giving just some of the choices open to students who study esports.

CRAVEN COLLEGE CRUSADERS ESPORTS TEAM

As part of your journey at Craven College, you have the exciting opportunity to join our esteemed esports team, the **Craven College Crusaders**.

From 2022, our team has proudly participated in the British Esports Federation Student Champs programme, achieving remarkable success.

There is an opportunity for you to join the team in various ways:

- Team Player
- Coaching / Assistant
- Digital Content Creation

By joining the Crusaders, you will help advance our college's presence in the esports community and help grow the inclusive and dynamic environment we strive to build.

More details are available on request and given at Open Events.
