

Welcome to Craven College and the BSc Hons in Air Transport Management.

To help you prepare for your dissertation we would like you to complete the following task and bring it to your induction session on Tuesday 15th September 2026.

Task: Dissertation Preparation

As part of the level 6 BSc Hons in Air Transport Management you will be writing a dissertation. This is an exciting opportunity for you to carry out your own research into a particular question or problem in the world of aviation that you would like to investigate or put forward a solution to. This question or problem can be anything you like as long as it is related to aviation in some way. Previous students have investigated such diverse issues as the impact of fatigue on the mental health of cabin crews, what impact Brexit has had on UK aviation environmental legislation, and why there has been a pilot shortage post-Covid.

Please can you come up with three potential research questions you might like to investigate for your dissertation and bring these along to your induction session.

If you have any further questions about the task, please email jsimpkin@craven-college.ac.uk.
